

Zoë Gonzales

PROJECTS

Cyber Quiz - MongoDB, Mongoose, React, Express, JSON Web Tokens, PassportJS, bcrypt

- Quiz testing the user's knowledge of personal online privacy.
- Built user authentication in Node with Mongoose models, Passport, JWT, and bcrypt to hash and store user passwords, generate a token upon successful login, and invalidate the token upon logout.
- Wrote stateful React components exclusively using hooks.
- **Code:** bit.ly/CyberGit | **Live:** bit.ly/CyberAppLive

Meetup Clone (In Progress) - Go, React, Redux, SASS, PostgreSQL

- Clone of the site Meetup.com, which allows users to create a profile, join groups, and RSVP to events..
- Constructed the models and controllers for the app using the GORM library to provide CRUD functionality for users, user profiles, and events.
- Built front end with React using Redux and hooks.
- **Code:** bit.ly/MeetGit

Shelter Manager - MongoDB, Mongoose, Express, React, Trello

- Collaborative project in a team of six with the goal of building a platform for animal shelters to manage their incoming animals and donations.
- Wrote the controllers in Node and Mongoose to execute create and read actions for the animal and donation models.
- Developed API routes in Express to link the controllers to the client.
- Built several stateful React components including forms to add animals and donations and the functionality of the search bar feature.
- **Code:** bit.ly/ShelterGit | **Live:** bit.ly/ShelterAppLive

EXPERIENCE
